## The National Federation of Bus Users

campaigns for better services for bus users. It works both independently and with other organisations to strengthen the voice of bus users in the discussion of public transport issues, to increase their influence on local and national decisions about bus services, and to develop better communication between passengers and the providers of bus services.

The NFBU also helps set up local bus user groups, and helps individual passengers and bus user groups with local problems. A newsletter "Bus Stop Jottings" is sent to Members 4 times a year.
